South West England

Phone: See website

Boathouse Cottage is a cosy and quirky seaside property built into the cliff and fully upgraded in preparation for the 2010 season. The accommodation has been skilfully extended into the rockface and is presented to a very good standard throughout with stunning views along the famous Slapton Line and out to sea. The cottage is ideally set up for couples or a young family with all living accommodation on the upper level and a bedroom on each floor. Slate tiled flooring throughout the lower level with wood laminate on the first floor. Electric heating and instant hot water. Smoking and pets are not permitted.
